## Additional Costs

As part of acquiring the ONC Certified QSuite, there are several separate pieces that must be purchased and maintained by the EP's practice organization:

a. QSuite application – one-time cost and monthly fee per provider OR QComplete package [Revenue Cycle Management] with monthly fee as percent of practice revenue;

b. QPatientPortal – patient-facing web portal - upfront cost and monthly per provider fee

c. QDirect – DIRECT messaging function – upfront cost and monthly per provider fee;

d. Immunization Registry Interface – upfront cost and monthly per provider fee.

If Needed:

a. Syndromic Surveillance Registry Interface – one-time cost and monthly per provider fee;

b. Specialized Registry Interface – one-time cost and monthly per provider fee.

New versions of QSuite will be available to all current QSuite customers as a no-charge update.  QSuite is a package offering consisting of EHR, and Portal, and is available to new customers either through a one-time license fee, to include implementation service fees, and ongoing annual maintenance and support, or in a hosted model with an upfront implementation fee and ongoing monthly hosted service fees. Incremental costs that an eligible provider would pay to implement QSuite in order to meet meaningful use objectives and measures may include:

- One-time costs to establish interfaces for outgoing lab orders, inbound lab results, HIEs, registries, and public health agencies (170.315(a)(2),(3),(f)(1),(2))
- Ongoing costs either on a per transaction or per provider per month basis for electronic prescribing, outgoing lab orders, and inbound lab results (170.315(a)(1),(2),(3), (b)(1), (3), (f)(1),(2))
- Ongoing monthly costs to support online patient portal, secure direct messaging, and interfaces for HIEs, registries, and public health agencies (170.315(a)(1),(2),(3), (b)(1),(3), (e)(1),(3), (f)(1),(2), (g)(7),(8),(9), (h)(1))
