

# Integrated Tools Help Family Practice Raise the Standard of Care

Gilcrease Medical Group is an independent practice near Austin, Texas. While making the transition to a new office, Gilcrease Medical Group researched a number of practice management systems to maximize the efficiency and effectiveness of their practice. They ultimately chose to partner with TRIARQ because of the dedicated, responsive customer service, and seamless integration between the EMR and billing software products.

## Convenient Combinations

A partner like TRIARQ knows and anticipates your business needs. Our Meaningful-Use-Certified EMR software and billing tools work together seamlessly. Go from the exam room to patient check-out to insurance billing with effortless ease.

***“Our previous software created an awkward crossing between EMR and billing tools. TRIARQ’s system is fast and intuitive. It just makes sense.”***

*Russell Furth, Practice Manager*

## Facilitating Value-Based Care

Partnering with TRIARQ makes it easier than ever to start down the road to Value-Based Care. We know what it takes to run a practice. Our all-inclusive system combines EMR, billing, and other important practice management tools. This creates a smooth path into Value-Based Care, opening the door to a more stable, manageable future.

***“Without TRIARQ, there’s no way we’d be able to pursue Value-Based Care. It would have either cost a fortune or been outright impossible.”***

*Russell Furth, Practice Manager*

## Increasing Accountability

Practices with multiple care providers and administrative staff need one complete system to help manage the workload and track progress. TRIARQ Pro lets you tag team members to share information, assign tasks, and make sure those tasks are being completed.

***“Day-to-day practice management moves fast and you can’t let anything slip through the cracks. This software keeps everyone accountable and helps us work quickly.”***

*Russell Furth, Practice Manager*

## Anticipating Needs

Being a partner means knowing and understanding your needs. We are all about being proactive. We reach out regularly to make sure your practice is getting the most out of the TRIARQ practice management software.

***“They always respond quickly and are very willing and enthusiastic. But usually TRIARQ reaches out before we do!”***

*Russell Furth, Practice Manager*

Your personalized partner on the road to value.
