

Proactive Partnership Strengthens Orthopedic Practice

Orthopedic Specialists of Dallas is a medium-sized independent practice outside of Dallas, Texas. When choosing an EMR, they were looking for more than a healthcare vendor. What they found in TRIARQ was a proactive and engaged partner. By proposing and implementing a number of key tools and services, TRIARQ was able to help them streamline office processes, improve patient care, and reduce days in accounts receivable by over 60%.

Lowering Costs and Increasing Revenues

TRIARQ Complete is a comprehensive package of software, revenue management services, and value-based tools that help simplify your daily operations, as well as reducing your costs. TRIARQ Complete allows you to focus on quality patient care, while we collect the payments.

“In February 2013, our average outstanding Accounts Receivable was 54 days. Now, as of February 2017, it is only 21 days!”

Kelly Payette, Practice Manager

Simplify Government Standards

True partners are on the same page. Our experience in both practice management and software means we know what it takes to keep up with the latest industry regulations. We save you time by making the process simple and ensuring that you meet business goals. TRIARQ Complete makes it easy to comply with MIPS, PQRS, and MU standards.

Dedicated Performance Managers

Each TRIARQ partner works with a Performance Manager to help make the most of our products and services. With TRIARQ Complete, your dedicated Performance Manager will keep track of your billings, making sure we collect on every possible collectible dollar of revenue.

“Our wonderful Performance Manager has made my life so easy. She always has exactly what I need, when I need it, so I can get back to work quickly.”

Kelly Payette, Practice Manager

No More Notes

The dictation tool allows care providers to record notes without writing them by hand. This saves time in the exam room, and ensures accuracy when reviewing them after an appointment.

“Dictation helps improve the workload of providers. It means more time spent talking to the patient and less time writing it all down.”

Kelly Payette, Practice Manager
